Summary

Experienced Front-End Developer with over 8+ years of hands-on expertise in developing highly responsive user interface components for web and mobile applications using React Js. Proficient in JavaScript, TypeScript, HTML and CSS. Skilled in optimizing components for seamless cross-browser and cross-device functionality. Committed to writing clean, reusable and testable code while adhering to best practices and coding standards.

Education

MS **Saurashtra University of India**, Computer Science   Jun. 2012 to Mar. 2014

BCA **Saurashtra University of India**, Computer Science   May 2009 to Mar. 2012

Experience

Scaleteam Technologies Pvt.Ltd.,India, Front-End Developer (Full-Time Onsite)   Jan. 2020 to Jul. 2023
                                                                                          3 yr 7 months

- Developed and optimized web applications using React, integrating diverse data sources via REST APIs.
- Led backend development with Node js, creating RESTful APIs and leveraging Express.js for enhanced server performance.
- Implemented Bootstrap and Tailwind CSS for visually appealing and user-friendly interfaces.

Quintech Fingain Pvt.Ltd.,India, Java/PHP Developer (Full-time Onsite)   Sep. 2017 to Dec. 2019
                                                                                          2 yr 4 months

- Developed efficient and reusable PHP modules for web applications, ensuring optimal performance and scalability.
- Utilized modern JavaScript frameworks like React for dynamic and responsive user interfaces.
- Actively collaborated across roles to ensure project success.

Savaj Infotech,India, Android Developer (Full-Time Onsite)   Aug. 2014 to Aug. 2017
                                                                                          3 yr 1 months

- Developed high-performance Java code for Android apps, utilizing libraries like Volley and Retrofit for data fetching.
- Specialized in implementing best practices of Android UI design for intuitive and visually appealing user interfaces.

Projects

MyFitness World   Jan.2020 to July 2023

- Engineered an intuitive admin panel for efficient content management and user interaction. Implemented Redux for streamlined state management and collaborated on user-friendly features in the MyFitnessWorld app available on App Store and Play Store.
- Executed intricate CRUD operations integrated secure payment gateways and developed a proactive notification system for enhanced user engagement in the My Fitness World project.
- Used React Js, Redux, GraphQL, MongoDB, Tailwind CSS, Firebase Auth, AWS S3, Razor Pay.

CVD Mart (Diamond Project)

Jan.2020 to July 2023

- Integral contributor to CVD Mart's certified diamond project, specializing in Redux store management and user-friendly features like "Add to Cart" and customizable options in the Jewellery section. Applied advanced filters for an improved user experience and optimized UI with React concepts. Explore the live website at cvd mart.com.
- Used React js, TypeScript, Javascript, Redux, MongoDB, GraphQL, AWS S3.

QuinTech Fingain Web Site

Sep.2017 to Dec. 2019

- Crafted a visually appealing website using HTML and CSS focusing on clean design and seamless user experience. Implemented responsive layouts to ensure optimal viewing across devices. The site showcases my proficiency in front-end development, emphasizing simplicity and elegance in design.
- Used PHP ,CSS, HTML.

PhotoGallery App

Aug.2014 to Aug. 2017

- Developed a feature-rich PhotoGallery app for Android seamlessly combining functionality and aesthetics. Implemented intuitive navigation, smooth image loading, and user-friendly interfaces to enhance the overall user experience. The app is a showcase of my proficiency in Android development,offering a visually pleasing and efficient platform for photo viewing.
- Used Java, SDK, XML, CSS, HTML, Android.

Additional Certificate

Azure Certificate: Learn Online Azure by Great Learning Academy.

MERN Stack Fundamental Certificate: Online Course MERN by Great Learning Academy.

AWS Beginners: Learn Online AWS Beginners course.

Skills

Languages: C++, C, Java, Javascript, PHP, HTML, CSS.

Software: Visual Studio, Eclipse, MongoDB, GotDot.

Web Technologies: ReactJS, Redux, Hooks, json, Node.js, TypeScript, Material UI, TailwindCSS, Express.js, ES6, REST API, Apollo GraphQl, npm, npx, bootstrap, yarn, Babel, xml, Retrofit, Volley, Promises, Asyn/await, Vite, Docker, Razor Pay.

Database / other: Algorithms, Firebase, Trello, JIRA, Git, MongoDB, tomcat, Apache, object-oriented programming (OOP), unit test, postman.

Soft Skills: Leadership, Teamwork, Communication, Problem Solving, Time Management, Attention to Details.
